

November 13, 1992

Dear Community Leader,

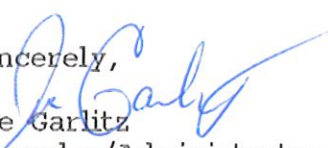

The future of Elgin and our own personnel well-being as residents of Elgin, depend on the efforts we make today for our community's future. Several organizations in Elgin, some ad hoc committees, and the City Council have independently been discussing and planning various projects that would benefit our community.

The City Council would like to bring this activity to the attention of the whole community. To facilitate this effort the Council has asked that each business and organization be contacted for comment. We are therefor asking that you list for us projects that you are doing and those you plan on doing in the near future which will have an impact on our community.

To help the Council better direct the City's resources, we would also like you to identify for us any projects that, from your perspective, need to be done to preserve or enhance our community's livability. The projects you identify can be any thing at any scale that you see as a need in or around Elgin. The projects you identify might be small involving two or three people or they might involve the City and State governments. Let your imaginations guide you.

We ask you to join us in a discussion of your projects at an open meeting 7:00 pm, on Tuesday January 19, 1993 at the Community Center. We would like to identify potential grant eligible projects and to include other of these projects in the budgeting process early next year for the 1993/1994 fiscal year. Beyond that though we feel that an opportunity to exchange ideas will be valuable to us all.

Sincerely,

Joe Garlitz
